

RAHUL KURE

LINUX SYSTEMS ADMINISTRATOR

Bhopal, MP, India 462022 • +91 83197 65508 • rahulkure5@gmail.com • linkedin.com/in/rahul-kure-826694299

PROFESSIONAL SUMMARY

Results-driven Linux Systems Administrator with 3 years of hands-on experience managing production servers, web hosting environments, enterprise networks, and cloud infrastructure. Proven expertise across CentOS, RHEL, Rocky Linux, AlmaLinux, and Ubuntu, paired with practical administration of WHM/cPanel, SolusVM, DNS/mail servers, and network security tooling. Skilled in Bash, Python, Ansible, Git, Zabbix monitoring, and server hardening. Focused on maintaining 99.9% infrastructure uptime, accelerating incident resolution, and automating routine deployment workflows.

CORE TECHNICAL SKILLS

Linux Administration:	CentOS, RHEL, Rocky Linux, AlmaLinux, Ubuntu, Bash Scripting, SELinux, LVM, ACLs
Automation & DevOps:	Ansible, Python, Git, Cron Task Scheduling, CI/CD Pipeline Support
Hosting & Virtualization:	WHM/cPanel, WHMCS, SolusVM, VPS Management, KVM, Cloud Infrastructure, Backup & Disaster Recovery
Networking & Services:	DNS, DHCP, NFS, VLAN, Apache, Nginx, Iptables, PfSense, LAN/WAN Routing & Troubleshooting
Monitoring & Security:	Zabbix Monitoring, Active Directory, Server Hardening, Vulnerability Assessment, Nmap, Wireshark, Burp Suite

PROFESSIONAL EXPERIENCE

Ruchi Security Printers Pvt. Ltd.

Bhopal, MP | Sep 2025 – Present

Network Engineer

- Administer end-to-end IT infrastructure across 50+ network nodes, maintaining 99.8% uptime for critical Windows and Linux server operations.
- Configure and optimize LAN/WAN routing, VLANs, and firewall rules via PfSense, resolving network bottlenecks and establishing secure inter-site communication.
- Manage Active Directory environment including user access privileges, Group Policy Objects (GPOs), and system update rollouts.
- Provide desktop and application infrastructure support, achieving an average incident resolution time under 30 minutes.

Vellko Media

Bhopal, MP | Aug 2024 – Mar 2025

Linux System Administrator & Security Analyst

(Promoted/Expanded scope to Security Penetration Testing from Dec 2024)

- Managed live Linux hosting production servers (CentOS/AlmaLinux), delivering high availability for customer web applications.
- Executed cPanel/WHM server provisioning, account migrations, DNS zone adjustments, and mail server routing for 100+ client hosting accounts.
- Conducted periodic vulnerability assessments and network scans using Nmap and Burp Suite to identify server configuration flaws and security gaps.
- Authored security and remediation reports, translating identified vulnerabilities into concrete server hardening fixes and PfSense firewall updates.
- Monitored server CPU/Memory metrics and network availability using Zabbix, proactively addressing performance bottlenecks before end-user impact.

Magnum Group

Bhopal, MP | Jun 2023 – Jul 2024

Desktop Support Engineer

- Maintained workstation stability for 80+ enterprise end-users, handling OS deployment, software configuration, and routine hardware maintenance.
- Automated system maintenance routines using custom shell scripts, reducing manual setup time per machine by 40%.
- Implemented endpoint security practices and antivirus management routines to safeguard organizational data and network boundaries.

EDUCATION & CERTIFICATIONS

Certified Ethical Hacker (CEH v13)

Diploma in Cloud Computing (IT)
